

Yolanda Fierro Eleta

For the last 20 years, Yolanda Fierro has been highly involved in her father's various business holdings mainly in Spain, South America (Argentina, Peru, Ecuador, Venezuela, Colombia, Brazil and Guatemala) and the United States.

Fierro was born in Madrid, Spain. She studied in England and received degrees in English language and culture and liberal arts. Upon returning to Madrid, she attended the Military Red Cross for four years and then worked as a surgical nurse, assisting Dr. Vázquez Añon in reconstructive plastic surgery.

Fierro also worked for several years at Club Siglo XXI, a business club in Madrid, organizing conferences for international business communities.

Fierro has 35 years of experience in wildlife management research and more specifically in the study of red deer and wild boar behavior undertaken in the ranches, she owns in Spain. She published several studies and articles in various scientific magazines such as *Deer Farmer Magazine*, *The Iberian Parasitology Journal of the Superior Assembly of Scientific Investigations*, the Exotic Wildlife Association Newsletter, *Zeschrift fur Jagdwissenschaft*, *Annals New York Academy of Sciences*, the *Journal of Comparative pathology*, *Veterinary Pathology* and the *Journal of Wildlife Diseases*.

She is currently a member of the Hunting Resources Investigation Institute on Game Biology (IREC) part of Castilla La Mancha University and is involved in a I+D Project about "Interaction between Nutrition and Immunity System of Iberian Red Deer". Since July, 2009, she has been a member of the Castilla-La Mancha University Foundation.

Fierro has two sons, both graduated in Economics and Finance in United States universities. Her first grandchild was born in 2007.

She enjoys big game hunting and is fond of deep sea fishing and everything related to wildlife.
